#### Equipment Features:

- With its powerful 2-cylinder engine, the RAMBO-HC15H-V2 effortlessly shreds branches up to 150 mm in diameter.
- Hydraulic feed roller with forward and reverse for easier work
- Integrated chassis with drawbar for fast, easy moving
- The professional disc wheel shredder with two blades and one counter blade processes even unruly material.
- 10 movable blades on the disc wheel shred the already chopped material again to obtain an even finer ejection.
- The 4 blades mounted on the back of the disc wheel eject the shredded material through the 360° rotatable and 80 cm high discharge chute.
- The feed hopper and a maintenance flap above the feed roller can be folded to the side for cleaning the feed roller.
- **NEW: Now with a support wheel on the drawbar for even easier maneuvering.**
