

RAMBO-HC20HZ

Disc wheel chipper with PTO drive & hydraulic feed roller

PRODUCT-INFORMATION

Technical Data

RAMBO-HC20HZ

Drive	PTO
Power demand tractor	ca. 20 PS
PTO speed	max. 540 rpm
Three point hitch	Cat. I
Hydraulic oil tank volume	26,5 Liter
Branch diameter Ø, max.	200 mm
Infeed speed	individually adjustable
Discharge hopper / discharge flap	360° rotatable / adjustable
Knives speed	1.100 rpm
Weight (net / gross)	475 / 525 kg
Guaranteed sound power level LWA	94,5 dB(A)
Dimensions (L/W/H)	1885 / 1917 / 2185 mm
Packaging dimensions (L/W/H)	1240 / 1090 / 1175 mm

Incl. PTO-shaft

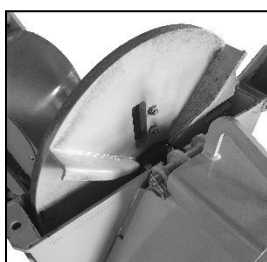

Art. No.: RAMBOHC20HZ

EAN: 40 47424 00746 4

Speed controller feed roller

Disc wheel with blade and knife

Equipment Features:

- The RAMBO-HC20HZ effortlessly shreds branches up to 200 mm in diameter.
- Hydraulic feed roller with forward and reverse for easier work
- Feeding speed can be adjusted individually
- The professional disc wheel shredder with four blades and one counter blade processes even unruly material.
- The attached 4 blades, on the rear side of the disc wheel, eject the chopped material via the 360° rotatable and 75 cm high ejection chute.
- Hinged disc wheel housing can be folded to the side for cleaning or a blade change.
- Folding discharge chute allows for easier transport and storage of the unit.
- The 26.5 liter hydraulic oil tank with temperature gauge has been placed under the unit to save space and for optimal weight distribution.
- PTO shaft included in the scope of delivery
